HOME SEWING MAKES GOOD

The woman who can make hown clothes can dress smartly

Even if you're brand new at the art of home sewing, you needn't hesitate to try your hand at the washable wool financis, the cotton sheers with expensive-looking met-allic prints, the wool-and-oryion hopsackings and the print silks. They'll all launder so well that they'll prove budget-priced in the long run.

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor.

A nation realed isday from the stunning impact of the way that its favored Kitchener Duichmen, amateur hockey agaptens of Canada, had been defeated by the United state same, a cowe of college beys who had neiden, if over ayed together before training for the Olympic safari.

he supposedly invincible Dutchmen were supposed to trek rope and take the continental boys, including Russia, in stride to repest for the world hockey championship.

It was a hard pill for Canadians to swallow, especially ter being dished out by the dispensers from the United alsor. The American team was pick-up affair which our peris rated as being of good intermediate "A" calibra-tical ii be that yesterday's detest of the highly rated Dutch-im was a battle between degred determination to wis and

It must have been a large julcy crow that Andy O'Brien, Montreal sports editor, who is covering the games, had to chew on in the early hours of this morning. For wann't it Andy who travelled with the Dutchmen during a senior "A" start and was so taken with their ability that he called them to de-feat any and all of the Olympic representatives—and to double

The Coochs nearly defeated our side in their duel while Sweden, one of the second-rate cinhs came along and macrosaborded the puckists from Frague by handing them a large, july 5-9 duck-eg.

The Americans were not given a chance in the final abover. Neither were the Swedes. In the meantime the smiri Russians are probably nodding 1-Told-You-So noggins ow theirs of vodds and predicting they will knock the blocksky the Dutchovitches come Saturday.

It the Dilchmen had been defeated by a European team, the setback sould have been placed at the door of overall improvement of continental heakey. But it was a triffe humilisting to have to how to a clab that itself will admit is not in a class with the Canadian champions.

Anti they have got to prove it—but good. Their only chance for the tills now, unless some team knocks off the Russians in the meantime, it so win their three remaining gener—and pile up big scores in the doing. There are no playors in the Olympics tournament and in case of ties goal averages count. And the Dylchlas's scoring performances in the final series rates them fourth with the Russians and USA one—two.

But give the Americans credit. They teed off with a finke goal, settled back to protect it, grabbed apportunities for breakways and had a goalle who could have slopped the Light Birgade, Custer at the Little Bir Hern, Napolecon's retreat from Moscow and Chengis Khan all rolled into one.

WHAT DULLES THINKS THE CHINESE THINK THE TIR MEANS

The most recent issue of "U. S. News and World Report" carries an analysis of two conflicting viewpoints on foreign policy. Since these contrasted viewpoints are those of Dean Acheson, Secretary of State under Freedom Truman, and John Foster Dulles, present Secretary of State, they are of more than passing interest.

Gist of the analysis is that Acheson favored—and

Trainmin, and John Foster Dulles, present Secretary of State, they are of more than passing interest. State of the analysis is that Achseon favored—and still favor—a policy of "continuemen" of Communist Russis, while Dulles is pledged to a policy of seeking a "delaterent" to war, these viewpoints do not appear mutually exclusive. In Mr. Achseonis own words: "In short, the objective of our policy is to sevid and prevent an ancient was a nuclear war and surrender." In Mr. Dulles own words: "In short, the objective of our policy is to sevid and prevent as a nuclear war and surrender." In Mr. Dulles own words: "In believe that the United States should adopt every Lumorable course to words life to the pursuit of a just and durable peace. I believe, however, that there are basic moral values and vital interests, for which we stand have been appeared to the prevent of the control values and vital interests, for which we stand have been appeared to the principles—If need be, by life lited."

The prevent of the control of the control values and vital interests, for which we stand the prevent of the other. The prevent of the control values and vital interests, for which we stand the prevent of the other. The prevent of the control values and vital interests, for which we standard the prevent of the other. The prevent of the prevent of the other is wrong. There is often more than the control values are prevent of the other is wrong. There is often more than tone in the same, an honorable peace.

Mr. Dulles, has Sanchower would have regarded an attack on Quemoy and the Matsus as an attack on Quemoy and the Matsus

According to the article in Life Magazine, when Dulles
assumed the duttes of Secretary of State, who believed
that he had isolated to of the major causes of war, in"Somehow we cannot escape the conviction that,
instead of isolating miscalculation, Mr. Dulles has miscalculated the isolation. After reading his explanation
we should expect miscalculation to be epidemic.

ONE THEORY DEBUNKED

There is this to be said for the 1956 Winter Olympics. We are not likely to find much acceptance, this side of the Iron Curtain, of the strange and wonderful theory that excellence at sports is a yardstick by which to judge the moral integrity, cultural achievements and economic stability of a nation.

# 7 REASONS WHY!

# YOU SHOULD TRADE-IN YOUR OLD TV NOW!

1—Late Models Give Far Superior Performance

New advancements in television engineering give sharper pictures with much more contrast.

- 2—Late Model Sets Bring In More Stations
  Improved circuits and tubes in late years give greater pulling power in TV sets.
- 3—New TV Designs Require Less Upkeep
  Which means fewer repair bills and uninterrupted television pleasure.
- 4—Repairs Can Be Costly On Old Sets

If your present set is causing trouble, your payments on a new television may be less than your present repair bills.

- 5—Your Present TV Need Not Be Fully Paid For
  In most cases you may trade-in your old television even though you still owe several payments.
  - in most cases lon may reade in long our releasion each morks lon sum one seat
- 6—No Money Down

Your old television will cover the down payment. Monthly terms as low as \$9.00.

7-Your Old Set Is Worth More Now

We can give you top allowance for your small screen television only while there is a demand for used television sets. Act now!

RIGHT NOW . . . WE ARE ALLOWING UP TO \$150. TRADE-IN ALLOWANCE ON BRAND NEW, 1956 MODEL

when he arrived here, and the ralibirds looked askance at the ratiblicis looked askance at the diminutive gray from North-ern Ontario. But they seen changed their minds when they saw him fill up and down the loe surface a couple of times. In fact he was about the best hockey player the Chicage management so at here during the Cook-Wilson various.

He sparked the Belleville Hawks during his playing ten-place and was a popular little guy with all who knew him-ms he went to the Gait Elzek Hawks junler "A" squad-ried to carve out what seems to be a brilliant hockey fu-

However, they think a lot of the dark-haired, dark-syed youngster from the tendra so paround North Bay. Since his first game as a fall-time National League player Hector has made good. With the funiter "A" wrinkine worn off he hids fair to become a permanent fixture on the Brau-time.

Lalande practically jumped from junior "A" ranks into the time. There was a brief interim, however. After the Galt ket Hawks were eliminated last year, he moved up with the fiale Bisons, playing three sames and recording one assist.

His three-rame try-out sojours with the Hawks hast ar apparently did no harm... It gave him at least some the acclimatation. He sleeped on the ice as a full-ne Hawk this season with plenty of confidence.

The sportswriters and sportscatter eyed "Hec" with ap-val on his first trip around the circuit. The kid was good, fitted himself into the Chicago scheme of things quite nice— Them he started scoring goals, and assisting in others.

And the boys in the press box still kept their eyes on silm, goed-leeking youngrier. They liked what they saw, much so that they polled 25 votes for him in the mid-sen voting for ease of the four Mational Hockey League

Heciar finished third in the voting for the Calder Ma-merial twolsy balleting. This hamble is given annually to the containating reads of the year. VARIONETS TO MOUNTAINS

This city's carting Mahomets are off to various as over the workend and the orphans of the rearin sect to came home with some of the foreign loot.

These guys just love the broom-and-stone pastime, although upy of them were asked by the spouse to dust out the kit-a or the back porch with an overgroum whisk you would it to bear the hollers and excu es in Shannonville.

They have no cariing home, have those addicts of the game—and where they get in their practice licks is hard is understand. Mebbe Mesen. Chube Tice and Bill. Gastl have a secret cariing hidesway somewhere in the histertands of Hashings for regularly cach assens they take their beddies and safari off to various homepits and unsuity come home with some traphics of the class.

Bill Gault takes his husky quartet down Etagsion way to engage in the Spertomen's Beospiel. Besides Bill the akly, there is viole-akly Siever Finistef. Charits Levett and Har-eld Wilkinson. They are entered with some 38 rinks from other parts of Eastern Ontaine and play today and ionocrew.

Then there are four other sporizons with different ideas, recepting not toxing big stones for them. No snowbanks toy ladjowers for this brave quartet. The divid take the mire and the westberman. It is the green grass and warm patints, the lurse of the little while pill and the third of links prediction that takes this foursome far from the hills of Hast-mostilion.

These doughty winter-shakers have no set travel target.

y wentured out on Groundhog Day, failed to see their shadows
decided not to wait for the vernal season—but go get it.

So Heward Walsh of Zellar's, Jimmy Walker of Walker's rea, Milks Temaso of Shorey's Delivery and an unidentified packed their gear, threw in their gulling trinkets and ided southward, destination unknown.

The only clue as to their approximate whereabout is "where as is green and golf courses have no winter padiocks."

a green and golf courses have no winter pedioda. "So Javanod the Ear of Quinta Country Chis Hinhs there gunteness are however as "reder specifica". They shot the hardent and honovable game at every opportunity and ra-rece has it they wise up the pre-shot properties of ra-served and the properties of the properties of ra-tes of the properties of the properties of the latest and matter areas like "hirthes and capies" in their sleep,

However, they've taken the winter bull by the borns ieparted southward for the next ten days where they exper gorge themselves with golf.

Nor is the distaff side to be outdone in this weeker trek to outside sportdom.

Five winnome lassies, the better of the gal's bowling crop hereabouts, take off for Kingston tomorrow to do battle on the alleys (for deer old Belleville and the bonor of winning fame, glory and possibly cash in the ladies' division of the Molson Bowling Classic.

They include Jean Mulvillii, Madeline James, "Babe" Bardwick, Doris McLean and Leis McRobert. This quintet finished tops in the Bulleville district of the Mingrian region and qualified is most the gain from Brockville, Gannaque, Kingrison, Napason, Descreate, Picios and Tweed for the honors.

From Describto will go Mrs. Phyllis Thompson, Mrs. Mutiel Kimmett, Mrs. Dorothy Gonyou, Miss Beverlee Cole, Mrs. Blanche Detlor and The Ontario Intelligencer's own Sally Mastenbrok. Sally is quite a gai wift the bowls and strikes and the gang here is pulling for their "Sally on the Alley."

Incidentally the regional men's tournament takes place in Brockville on Saturfay, February 11th. Representing Belleville will be Bill Bateman, Vio Bellveau, Art Lalende, Jim McKensie, Jim Lloyd and Art Atkin.

## Citizens Are Urged to Assist Local 'Do It Now Campaign' To Provide Off-Season Work

## **PROCLAMATION**

By virtue of the authority vested in me,  $\hat{I}$  earnestly request the cliticans of Belleville to wholeheartedly co-operate with the Belleville Special Employment Committee in their "Let's Do It Now" campign to level out and help eliminate in seasonal employment problem.

Prospecis for construction projects for this Spring and Summer are very good. Stilled trademen and laborers will be at a prenium. House-holders, mershants and magnutactures, by having their repair work. xi-building and remodelling done now, instead of next Spring or Summer, will be doing their part to give our city's armor shanced comony.

If you delay until Spring, these men will be fully employed and con-acquently you may suffer serious inconveniences and delays on your own projects.

Co-operation is the prime ingredient of prosperity, and you will be doing your share to make Belleville more prosperous by supporting the National Employment Service "Let's Do It Now" campaign.

## HELP REDUCE UNEMPLOYMENT

The grounding did not see his shadow on Thursday.

That means that his winter sleep is over and he can
re his spring housecleaning right away.

You may doubt that the grounding is right about
ting being just around the corner, but that houseclean-

g idea is a good one—and could be profitably copied Belleville residents.

p Belleville residents.
There was a day when more than the bear and counting hibernsted in Canada. Some phases of business and industry used to go to deep, too. Fortunately, siere has been a great change in that respect. Today a mimer of jobs which were once thought impossible in 6 Canadian winter are tackled successfully and profile. It is still true, however, that seasonal unemployably. It is still true, however, that seasonal unemploy-ment remains a problem common to most Canadian-cities, a problem in which Belleville shares. Now this city is going to do something shoot it. Through the city segrention of city officials, the National Employment Service and local businessmen, a concerted effort is going to be made to find jobs for many of Belleville's unemployed. This is not an appeal for charity. What is being sought for these men and women is not a handout, but an onor-tunity for them to earn their own brine.

sought for these men and women is not a namout, but an opportunity for them to earn their own living.

That's where Believille residents can copy the groundhog by waking up to the fact that spring is not far away and that there are a host of projects which could be undertaken now. Not only could many of the tasks some-

as not that there are a host of projects which could be undertaken now. Not only could many of the tasks sometimes postponed until spring be done at this time, but the wise citizen who has this work done now will reap many advantages. He or the will find that it is much easier to get promip corrier today than it is much easier to get promip corrier today than it is much easier to get promip corrier today than it is mentioned to the contract of the contract o

Count HYDRO Golden Jubilee MARKS THE SOLL ANNIVERSARY THE HYDRO-ELECTRIC POWER COMMISSION OF ONTARIO A HALF CENTURY OF SERVICE TO THE PEOPLE

## 50 YEARS OF PROGRESS

The fifty years since Ontario Hydro was created in 1906 constitute one of the most important eras in the history of our province. The Hydro family has played a major role in the progress of that half century, energetically developing Ontario's water resources to make available to farms, homes and industry, dependable electric power at rates among the lowest in the world.

In the process, the Hydro family has grown from the original 14 partner municipalities to 343. The number of customers served through these, plus rural, local systems and 

Commission and the municipal systems is almost two billion dollars.

In this, our Golden Jubilee Year, Ontario In this, our Golden Jubilee Year, Ontario Hydro and all the Hydro municipalities alute the men whose foresight and enter-prise founded the Hydro family sealute also labour, industry and agriculture, all of which may be proud of their part in helping to bring about the present high standard of living in Ontario.

What of the next 50 years? The future holds great promise in electrical living. Hydro will continue to provide an adequate supply of electricity to meet the power requirements

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

Believe it or not way back in 1453 B.C., a couple of seon fore the birth of the income tax, the Olympic Games, or cere-onies were memorial services. The Greeks had a word for in those days when "Olympiad" meant a period of four years.

The boys in those days, seconding to Greek bellef, came back to haust the back-rooms, baseball diamonds, pool-rooms and penny areades, after they passed on to the reserve squash of the gods. So every Olympida or feur years, the gang at home staged circumonies which included the favorite acat home staged orremonies which included the favorite ac-tivities, sports that is, of those who had gone on a perman-

Hellas, as Greece was know in th of several tribes extremely jealous of one another. Then Delphic, a sportswriter of those days got the idea to bring to-gether the champions of each trible, and turn 'em loose, with the winner of each event take all. This is said to be the beginning of the "Games of Olympia."

The expression "Olympic Games" was put in use in 776 B.C ame the custom to celebrate an Olympiad at Mount 'Tis said the warring tribes and quarreling cities forgot their bitterness almost with the first Olympic Games, and Greece soon became a united nation.

In these first games the gais were barred. This origin ed, it is believed, the first "knot-hole gang" and curiosity led some of the femmes to their deaths. But this did not stop 'em. The Grecian maidens started games of their own and ther've been playing them ever since. But later the

In happened when the mother of a pugilist disquised herself in mean's garb and slipped in unnosteed. The boy was and the mother forçoi herself. She ran over and em-beraced her son. She was tried but acquited. But the lodge ordered that from then on all trainers would appear

Men were loin cloths in the early gamer but in 120 MC three were abundanced, due to secident. A runner who wess't given a chance in a race lot his cloud during the race and went on to win by a large margin. For many years after men competed only in their "olithday suits".

The games reached their senith in Greece in 464 EC. The country took a holiday. Contestants and officers paraded the statue of the god Zeuz and took oaths to be falr—and for victory. "only if I am best!

Each winner was honored by his home fown. He was wined and dissel lavishly. Gifts were ferred on him. (Frundage was not born yet.) He was exampled from faxion. He was permitted to build his own moments and own his own bouse. If he wanted money all he had to do was akt.

Then disaster crept in. The Romans figured there was money to be 'made making personal appearance tours through-out the empire. They took everything they could get, in-ciuding industrial sites. The Greeks charged them with breaking the Olympic rules, but the Romans fiddled away while the Greeks burned. They continued to take part in the games.

During one of the Olympiads, the Romans, angreed by the Greek charges went on a rampage. They set fire to stableter buildings and practically rulned the entite Olym-pic set-up. Whereupon the Roman Emperor Theodottes decided the gardy had become a nuisance and ordered them abouland. Title was in 378-QD... That encide the Olympic Games for an uninterrupted span of 1,169 range.

In 1892 Baron Pierre de Coubertin of Franch revired the games after persistent effort and in 1894 lined up enough support to insure the games. The first of the modern Olympics took place in April, 1894.

An American, Jim Concolly, a Harvard freshman, was the first Olympic champion to be crowned after more than fifteen centuries. He made a hop-skip-and-jump mark of 45 feet, better than the field could do. Concolly was a mea-ber of a five-man American team that attended these

The other members of the (cam went on to imposing vic-ies, winning nine of ten events and piling up the most re-reable record in the history of modern Olympic games.

#### BELLEVILLE'S PRODUCTION RISES

Is Believille a suburb of Toronto?

Before one answers that question with an explosively indignant negative, let us hasten to explain that the question conceals no derogatory intentions, aimed at either Toronto or Belleville. It is prompted by the fact either Toronto or Belleville. It is prompted by the fact that, according to statistics prepared by the Dominion Bureau of Statistics, Belleville has been performing like a suburb of Toronto in the vitally important field of production. This, we may say, is not bad; indeed it is production. Thus, we may say, is not but; mocen it is very, very good. Toronto's suburbs have been group rapidly and this growth has not been confined to the housing of suburbanites who work in Toronto itself. There has been a vast industrial expansion outside of the

city limits of Toronto.

According to the Dominion Bureau of Statistics the gross value of goods produced in Long Branch in 1952, was 5822 per cent of the value of production in 1946. Mimilco's increase was 460.7 per cent. Leaside's 247.8 per cent and Weston's 219.9 per cent. The increase recorded

by Toronto itself was only 72.7 per cent.

Most of Ontario's smaller cities were unable to keep pace with Toronto's suburts. Production in Chatham rose 187.1 per cent, in St. Catharines 171 per cent, in St. Thomas 198.6 per cent and in Wootstock 142.7 per cent. Comwall's production rose 130.1 per cent, Gall's 128.2 per cent. Branfa's 129.2 per cent. Branfa's 129.2

cent, Michelle s above 2.

And Belleville? Why right up with the Toronto suburbs, with an increase of 245.9 per cent.

They should know by now that the opinion of some al-lered "home experts" whose statements are based on Can-adian performances and mostly love-of-country are very un-reliable.

They should know by new that the best "individual sateur" club in Canada is not good enough to represent country at world hockey tournaments.

This year it was not good enough to whip an American pick-team of college players who hadn't even been introduced one another prior to the Olympic workouts. That at least, one argument in favor of an all-star team.

From here it seems the answer lies with the Russians obably humiliated, and any setback is a humiliation as r as the boss-men behind the Iron Curiain are concerned, e Irana and Sergeis of the Red suck organization set an fective. To develop and train a club that could best the

Fifteen years ago 92 elements were listed in the tables
of matter. Today, there are 101 known elements and Dr.
Glen T. Seabong, Nobel laureate, predicts that seven new
forms of matter will be created in the next 15 years.

Journs of matter will be created in the next 15 years.

It is hardly likely that any of the seven elements to be-created will appear as ingredients in cake mixes or tooghpastes, but their appearance at all is a marvel.

Making new elements is the work of atomic research-

## The Pampered Chinchilla

The fluffy Chinchillas pictured above have every reason to be pampered. Once a wild rodent populating the South American Andes, the Chinchilla has since become highly-prized for the beauty and value of its thick, silky fur. Today, Chinchilla ranching is an integral part of the Canadian fur industry, through the activities of some

2,000 Canadian breeders who pay as high as \$2,000 for a matched pair, feed and care for them and pamper them with daily baths of Fuller's Earth. The object: the icy-blee furs which, when put together in a single, full-length woman's coar, command prices of up to \$20,000.

Chinchille mornally have two litters, of from one to chinchille make state, albeit copaints, pets. Through four kits each, per year. They aldom weigh more than at ounce-and-a-half at birth and do not strain full growth for two years. Occasionally a mothet Chinchille will gloss and sell them at the Montreal fur smotion, realizing will reduce to feed her kits, and here a week-old kit gets supplementary feeding from an eye-dropper.

Dier for these Chinchillas consists mainly of hay, green
feeds and commercially-reparted pellets. Slate or icyblue coloured Chinchilla fur, one of the finest in one
word, is light in weight, fine in extrure, and soft to touch.
Contrary to popular belief, Chinchilla fur wears as long
as any other fashionable fur.

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

A few weeks ago Dave Stevenson, with a face as straight as a politician delivering a pre-election speech solemnty advised a group of ralibirds watching the TFT's go through their practice calisthenics, "Look out for these Cornwall Coits."

At the time the Men o' Miron were in a position in the group nding from which they could travel but one way. They were king up at the other four clubs, but not too far behind our

The statement drew something that resembled a guiflaw from the assembled Teep-watchers, but that did not daunt the im-perturbable Dave.

"All right, all right," he said, nary a facial muscle tiching. "Jost you walt and see. Furthermore," added the imable Dave. "I would not be surprised to see the Coits a the group title."

That statement, at the moment was akin to predict that Doe Scott's fabled "Harry" would rise from his pastu-land sabes and wallop Nashua in a five-furlong sprint.

This time the Teep-watchers laughed outright. They fear-ed for Dave's mental status. In fact someone suggested that he visit a psychiatrist. Dave just grinned and walked away with a "Don't-forget-i-told-you" look on his face.

While Dave wins the steel-studded barbecue spit for being "longest limb-crawler" around the circuit he is having his assnt moments. And he is in the midst of one right now.

For the ersishile lowly Colis have taken the bit in their bockey teeth and are on a rampage that could take them onwards and upwards and dethrone the slipping King-ston Goodyears from their second-place seat of the mighty, it is a possibility.

They took the Kingston Goodyears apart on Sunday to see what makes them tick, and found the works needed oiling. They whomped the Douglamen 18-3 while a season's record crowd of some 2256 cheering down-east fans holicred them-

The Colis are gradually attaining a "herse" statur. That is if their performances the hast six of their times can be judged as criterion. Frank Marie's galloping breaches have wun five of these and have taken ever third place in the group standing, a point abard of the beath-validing Breckville Magedomas and six in-front of the Believille Coxener.

The Goodyears have been stopped in their tracks the last two games by Whithy and the Colts, and they had better be on their good behavior tonight when they tangle with the TPT's in Memorial Arena. Every game now whittles the games-left tola and each is important to all hands.

Turk Barelay will be in the TFT's nets but otherwise the Coxmen should be at mear full strength if Peter Jones returns to the lineup. Davy is still out. Incidentally we noted that the vetera—"Cdp" Udall was in the Kingston net against Cornwall on Sunday.

Meanwhile, the desperate Brockville Magedomas riding a six-game loss streak, are scraping the barrel for players. If our arithmetic is correct the Maggles have used some 27 or 28 players to dato—and we were under the impression 25 was the

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

As the lady remarked when she tossed a pail of water Atlantic Ocean, "Every little bit helps."

So it was with the Coxmen last night when they tage for arch-ensentes from Kingston with a 5-3 actiock. T edites wanted that one as bodiy as our side for they ha me to the looking-over-their-shoulder-stage where rawall Colts toum is beginning to loom onlineasty.

It was a hard-fought, clean battle with both teams play-despression heckey at times. The Teeps skated miles ga-beth wars and get one of their beiter defensive effects their cheeks. They played the Goodies to a first-period shall statemate, then blasted home three in a rew in the send heat to put the game on "ice."

They adopted an opportunist role for a change, scoring two is white Bob Londry of the Goodyears was ruminating in the alart boot. They lapsed a triff cancerously opening the third fold with the score I-3 but good defensive work thwarted the perats Goodyears. Then came Toodic Greenlaw's unsa-ed good and Douglas' penalty and the pressure was off.

Tought the Teeps irek to Breceivilla to take on the skid-placedoman. The riverside crew have lost their last six is and weath be in any ambible mood. A win for our will put them within a single point of the feourth-place gries, who like the Teeps have len gamate by hay... Actu-the Oceanen have a game in hand over Breckville six of the Magnelomar games in that presented affair, if it

Heckey breeds strange bedfellows. Never in the history the senior "B" circuit down this way have the wars of los-lanes been carried so much to the typewriters and

The junior columnist of the loop, Wren Blair from "Blarvellia," as friend Bibhael J. dube it, has taken on all and sundery through his printed word in the Walthy section of the Onbawn newspaper, Blair's fingers, like his tonkis, do not hadd back any punches and the results, at times,

If memory is correct the dynamic Blair has taken spiters of the entire group to task at one time or another. res of the entire group to task at one time or another, with exception of Wyman Collins of the Cornwall paper, who ses to be drawn into what is at times childish exchange.

The latest target for the Bhir tirade, and he is alded by the Whithy specturitier, is the Breckville Magredoman. The Magries, floupdering in the depth of a six-rame loaning streak have been besten decisively thrice by the surging Dunnies, and an Incident or we arising from these tills first the col-umning gauss of the specia writers of the two centres.

Now it's different. The boys have been firing printed broadsides at each other, mostly minor stuff, but which ap-parently makes good reading for the supporters of both clubs.

It seems a Maggie wag dubbed the Dunnies "cream puffs" and that started the war. Then there were alleged threats of one team "cleaning up" on the other and the unition snowballed tole what appeared to be, hard feelings

There was talk of "signs" being paraded by the various ubs while the verbal and columnar "threats" rolled back and

MILLINERY

From Canada's finest makers you will see such famous names as Lady Biltmore, Tallored by Okun, Stetson, Acme, Piko, Lady Beatrice and many more.

There's excitement in Spring Millinery — the bountiful look of 'BULK' in Panamaluc straws vies with the glossy "SPUN SUGAR" beauty of a new fabric, for Spring headlines.

Black, White, Navy, Pink, Heaven Blue, Crushed Lemon, Beige, Wild Honey, Grey, Avacado and Red.

NO STATIC PLEASE

E. W. Kenney, director of research for the Interna-tional Woodworkers of America, says that saws may become outmoded in the lumber industry. Sepeaking at a district convention in Vancouver last week, he said that logs could be cut by radio waves, which leave no sawdust and produce boards which are already planed.

planed. Sounds wonderful. But what happens if the static us his stodents always to work as lived is bad?

VES IT'S TRUE . . . IN MOST CASES YOU MAY TRADE IN YOUR OLD T.V. SET EVEN THOUGH YOU STILL OWE SEVERAL PAYMENT

TC TRADE-IN Your Television BECAUSE:

- —Late Models Give Far Superior Performance
- —Late Model Sets Bring In More Stations
  Improved circuits and tubes in late years give greater pulling power in TV sets.
- —New TV Designs Require Less Upkeep
  Which means fewer repair bills and uninterrupted television pleasure.
- -Repairs Can Be Costly On Old Sets

If your present set is causing trouble, your payments on a new television may be less than your present repair bills.

-No Money Down

Your old television will cover the down payment. Monthly terms as low as \$9.00.

-Your Old Set Is Worth More Now

We can give you top allowance for your small screen television only while there is a demand for used television sets. Act now!

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

The TFT's ported on that one. The Magrier' 7-4 win over our side has night hurt, although it did not indict faint inlury. It gave the Magries a new lease of life since it suspect their loss streak at the and enabled them to pigry-heck into third pinos, one point ahead of the Cornwall Coin.

But it left our side four points in arrears of the Colts, where-a win for the Teeps would have seen the Coxmen nudging Maggies with a one-point deficit.

on angine with a con-pact default.

If they have any real kery to the city down in Mich Binzierich force they should give the "hall hit and bootle" to the Mangierich Michigant of geni-block Schnery Borrach.

The distinctive nei-place, who could full through a lousicution of the state of t

So that's that. It's water under the hockey bridge and the Whitip Dunlops are here tomorrow night. Our side beat the powerful Baimone on their last visit here with an out-standing display of two-way hockey. And they will have to repeat the does if they want to hand the group leaders their sixth dectes of the season.

The wrestling faithful of the city and the far-flung district which sends its grunt-and-groan addicts to Memorial Arena consistently, will get a dress-rehearsal of their favorite sport come Wednesday, February 18th.

A bovy of topflight wrestlers from Harse Frank Tun-ncy's Toronto stable will show their wares at a show extra-ordinary being staged in the sports hangar of RCAF Station Treaton on that date.

Two of the toughest hombres ever to exhibit their wares in a Belleville ring will headline the show. None other than the well-knewn hard rock from 'down under' Fred Athias, will see another maybenin number. Frits Von Erich, one half of the longth team of Germans of Erich and Von Schuper. That is itself is sufficient to sitract a bumper crowl from the district.

Both are of the villain category. There will be no "hero" in this bout. There should be fun, fury and fireworks m this pair class because no love is lost between them if ir actions in a Belleville ring last year is a criterion.

Those who like their wrestling television style will get the opportunity to see one of their "favorites?" in action "lux." Be is Oyper Joe, who has never performed in per-son here but is rated one of the most colorful performers in the game. He will meet us old Believille favorite, Sail Samara, the shifty Scnegaless.

Two newcomers, Bobby Black, Toronio, and Maurice La-points, of Queboc, rated two of the fastest wrestlers in the game, round out the eard.

Personnnel of the air station are going all out in a with officials of the Trenton Community Centre Committee to make their first wrestling show a success.

The crick forms and trumpe band of the statics, which has earned the repistation of one of the best in the control, and has persent in by winting varient heaves, will see and has proved in by winting varient heaves, will see that he will be with the control of varient controls and during one of the internal of the wrestling card will be presented with medals by the statics commanding effort.

Dong Patterson, Stirling's gift to the Ontario Miner Hec-key Association executive (and they couldn't have given it a better fellow) is busine these days than the proverbial en-armed paperhanger with the lives. For it's playeff and shapebown time in OMBIA circles and the critinable Dong is Marco Poloring all over the district.

Things are rolling merrily along and the minor hool gradually being separated from the tare with some sely-fought battles being waged.

The Picton bantam "B's" were outled by the Ajax club, with the Prince Edward midget "B" team at present battling with Bowmanville. Gananoque's juvenile "B" took out the Pto-ton youngsters 14-7 and meet Bowmanville in the next round.

Observers like the look of the smart juvenile "D" team n Cooper which outted Halloway 13-1 on the round. The per youngsters might go a long way down the playdown

#### FAST TRIP IN 1840

Sometime in the not too distant future, it is hoped there will be a four-lane, controlled-access highway stretching from Windsor to Montreal. Such highways, variously called "Superhighways," "Thruways," "Tarkways," or "Turnpikes" by areas lucky enough to have them, and the superhip weeks the superhip was the superhip weeks the superhip was the

ways' or Turnpines' by areas incay enough to have them, are transportation necessities these days.

The dream of swift, safe transportation across southern Ontario has been the goal of planners since 1812 when the first crude roadways were opened for stage travel between Kingston and York.

belvens Kingston and York.

No one had more to do with the early development of Contario highways than Belleville's William Weller, a ploneer transportation magnate in the grand tradition. E. C. Gilletto in his "Rithory of Upper Canada" referred more of the largest, in both he largest, stage of the contained of

the entire route from Toronto to Montreal.

One of Ontario's early transportation sagas is the story of Weller's 38-hour drive from Toronto to Montreal with Governor General Lord Sydenham with a pardon for a man who was sentenced to be hanged. The account of this remarkable feat of driving some 380 miles over the roughest of roads in mid-winter is recorded in the "City of Belleville History" compiled by the late W. C. Mikel,

in Salierulis Elistory" completed by the late W. G. Mikel, M.C.L. K.C.

"In 1840 Lord Sydenham (Foulett Thompson) was fovernor General of Canada. In Jenuary of that year a man convicted of a crime was to be hauged at Montreat and the salierulis of the salierulis o

The Whitby Dunlops reckoned by most to be the best senior club to come out of the Eastern Ontario neck of the woods parade their vaunted power and scoring potential here to-

H it is at all humanly possible the TFT's should do their daugedes to teck this one away. They did it the last time the equades chashed here—and they did it in fairly de-cisive fashion. They can do it again but they will have to acrape the barrel for the last dreg of their potential H they are to send the Dunaies back to their Multip buillwick in a

The Blairmen have piled up an imposing record for the season. Possibly the best by any amuteur club in Ontario in many a moon. They have won twenty-six of their thirty-two starts to date, lost five and tied one. Not bed in any man's

Their gual-scoring record is a coach's dream and a severe's niphimare. They have fired 216 yacks past oppos-ing goalteepers in 36 outlag, an average of almost eight per grame. They have had 99 scored against them, an average of out, quite three.

In their last six times out they have scored 63 gools or an average of ten per game. These included such scores as 12-6, 14-3, 9-2 and 21-5, the latter over the Brockville Magedomas.

But, with all this scoring pemp and record glory, the Dunlops can be besten. And the Treps must pull off the trick touight if they want to keep more than a glimmer of playoff hope berning. Every game from here in is as im-portant as a ten-buck exemption on an income tax return.

The only thing that is worrying the Dunlops to any great extent is who will be their opponents in the first round of the group playoffs. They have clinched the group lead, or so it would seem, and at the moment their cyes are wandering over the geographical situation.

With the top team playing the fourth, and the second the third, from a travelling and financial point we the Dunnies would like nothing better than to see it pps finish in the fourth alot and let the eastern clube hat

it out for finals honors.

This islands in far from being settled. With the Teeps clinique despensivly to hope and Rycskvills and Gerward in the settled of the settled up in large states and the settled of the settle

Mike Rodden's "defending champions" (how he loves that) we been skidding of late and must needs hike their hockey iches if they want to grab off the place spot. Tonight these mas battle in Kingston and much depends on this tuzzle.

Bewere, the hig slow is in Memorial Areas. It should be one of the better games of the season, and another faulties that started by the squade the last time they played here. As was said before, the Teeps are in desperais one of a victory, and a win over the Dumines tought would not only improve their chances, but spike their morals for the teeps thoughts abstract.

#### TOO MANY STUBBORN PEOPLE

TOO MANY STUBBORN PEOPLE

Today there are too many irresistible forces meeting immovable object, seen in this troubled old world, something's got to give eventually.

In Famagustia on Tuesday morning, British troops and killed an Bayear-old Gypzide student. They were not to happy, either. Pers soldiers reliable littling unarmed boys. But what is one to do when one is stoned? Stones can kill, as well as buildes. Stoned to the stone of the stone

will be trouble-and it they do not there will be even more trouble.

In Washington, Freing Serviny John Fester Dulles in Washington, Freing Serviny John Fester Dulles in Washington, Freing Serviny John Fester Dulles Hatele State of Irangi, and also "embraces the principle of maintaining our friend-and the property of the state of Irangi," and also "embraces the principle of maintaining our friend-most of a reasonable man. Unfortunately the situation in the Middle East is not compatible with reason. No man who whelse to preserve the state of farred is ping to no man who whelse to preserve the state of farred as ping to no man who is a friend of the Arabe will find it easy to be received as a friend of farred. I men were no more stubborn than mules, there will be greater hope for the world.

#### ABSENTERISM IN PUBLIC SERVICE

Absenteeism in the public service is causing concern to Provincial Civil Service Commission officials in Toronto. According to Civil Service Commissioner C. J. Fester, abenteelsm cotentially because of Illness, in the public service during the last fiscal year totalled no less than 350 years!

# "Charm" Schools a \$2 Million Business

This Toronto housewife, undergoing skilful facial transformation, it availing herself of the services of a unique Cansidian industry devested to women in pursuit of pulchritude. In addition to course in make-up, Canadian sharm sebools also feature classes in figure-slimming, warnfrobe, voice-training and proper certifage.

Tape recording of voice is used in this Toronto charm school to instruct students in breath control, resonance and pitch, as aids to developing an attractive voice. This particular glamour school last year trained some 1,000, students, including 200 teen-agers, 500 working girls, and 300 housewives,

Advice on clothing and accessories, designed to suit in-dividual purse and personality, are given these beginning students. Tips on use of fabric and color, design, employ-ment of accessories, prove invaluable to both bousewives and models taking course. Here, instructress Jeannine Mallinson advises on millinery sayles.

Sparked by a phenomenal boom in beauty since the war's end, Canadian "chram" schools are today doing a thriving it million dollar business, teaching glamour secrets of make-up, proper certifies and wardrobe to potential career models and house-wives allow. So great is the stif-improvement trend that, in the Toronto area alone, some 8,000 women 1sty year spent \$400,000 on commercial and YWCA course designed to make them prettier on

the fashion runway or in the kitchen. "Riding bleycle", these students take figure slimming exercises under supervision of instructers-model Hilds Land Figure stream, lining course is simed at correcting figure defects brought about by insufficient exercise, poor posture and word by insufficient exercise, poor posture and word officer. Ultimate goal: the ideal symmetry of a perfect 3"-24"-3"." 34"-24"-34".

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

Wren Blair's Dunlops from west o' here are playing no fav-orites in their race for the group title. Last night they took our aide in their high-scoring stride, ramming home an ex-doesn goals to make their folal 78 for the last seven games.

Their performance sgainst the hard-heiling Trees lette to death in the minds of the 150-pins from sen hand as in wint to Bilatrans to the 150-pins from sen hand as to winy the Bilatrans to the revoy. They have a ripe and system all their own but one objective to wirer—to put the punch in the net. And they're been delay that with monetones regularity the last leve games out.

In fairness to the Topp their plays in fresi of the Whithy yeal were not as affective as they might have book. They missed many chances is noor probably faveauth versaxisty, then there was the Dunnies' gealts, Hawe, whe came up with a highly oredished performance, orspectably when our side was in front of his hactords. Nor in the Dunnies' defined earthly to be mesord at.

Turk Barday played under the handicap of an injured fool it was taken off the los ones for medical repairs. The Dunies were favoring slap shots behind a screen of attackers and strategy paid of more than once. At least three of their its were scored in this manner, while two more went home the Tree were a man short.

It was a side Canadian winter morning. The sible looked up, drew some deep breaths of good Canadian air, as gave unmistakable ordenoe they were gind to set foot Canadian soil again.

The weather was cool, as we said before. But was not as cool as the reception given them by the officials of the Canadian Amateur Heckey Association, whose members all were tacked away in their warm saug beds, oblivious to overy wakened thing.

What a difference a few weeks can make. Not too long the CAHA bigwigs were down in force to the Kitchener-terioo Dutchmen, Canada's representatives at the Olmypies key tournament leave for Europe and hockey honors.

They shook hands. They made speeches. They made a big te-de ever the Dutchies. They were the while-haired heckey beys as far as Canada and world title was concerned.

Yesterday it was different. Not one CAHA efficial was on hand to greet the returning heroes. For heroes they were, they represented Canada's best in ansteur hockey—and were defeated by a Eussian team, the better on the night's play,

Canada, recovering from the stunning shock of defeat, holds shing against the gallant boys who gave their best in that final y to retain world hockey laurels for "Our Lady of the own." Their best was not good enough and the first to nit! I was the Dutchmen themselves.

There is no discrete in defeat. The good name of Can-nda was upheld by this group of Candidas puckchasers in their quest for the world title. They did solding that would being a final of shame to any Candidas who follows in their feetings. In fact they made many friends, even among those who come from belinds the Iron Cartain.

But the peer overworked CAHA officials could not tree their easy binaries beds to bid writeness to their pro-paration of the country of the same simules would have actived their had the Dutchies returned with the world to tacked safely away beneath their collective aweaters.

The tremendous improvement in the Russian style of play we comment from coach Bobby Bauer of the Dutchies. He d he was impressed with their passing, precision-like play

"They wouldn't have to take lessons from anybody in NHL about passing," Bobby mid. "Those fellows are land from youngsiers, first in secort, them speed shating, fers they are sent into beckey regularly."

"They are marvels at picking up passes with their skales and even off their legs," Bauer added. "They den't fire pass-ea, like abeta, as in the NHL, but the passes are deflip placed along the ice—and perfectly picked up."

Raner would like to use the Russians play over here, so Canadians could see them. He thought they would need it rest three works of purcloss and wertent in Canadian closed areas, for they would find a big difference playing indoors. The riths here are narrower. These in Europe are 180 feet wide, a fact which bothered the Dutchies not a 1815.

But with all that, Bauer said, "I'm not taking anything ay from the Russians."

He suggested that board-cheeking abould be eliminated if the Russians should some over here to play. "That," he are "would ruin their game, fust the way it is ruining our game in Canada.

The choice of a title for this book was unfortunate, since the Indian boy, who was its hero, while little, certainly was not black and equally certainly should not have been named Sambo, a name with no vogue among Indians, whether Bindus or Modems.

What's news at Inco?

## These are pellets of iron ore from Inco's new plant at Copper Cliff

This ore contains over 65% iron and less than 2% silica. This is higher in grade than any iron ore now produced in quantity in North America.

This is the \$19 million plant which, with planned enlargements, will eventually produce about 1 million tons of iron ore a year. The present unit will treat 1000 tons of pyrrhotite concentrates daily.

Inco's process for the recovery of iron ore took years of laboratory and pilot plant studies. It opens the way for increased recovery of other elements from the complex Sudbury ores when economically feasible.

This latest major result of Inco's process research is one of a series of planned, long-range developments by which its ore treatment processes are being revolutionized. It is a further step toward one of Inco's primary objectives—the maximum utilization of its ores.

At the moment they age te points in front of Cornwall and after tonight will have serv-games left, while Cornwall has two more with the chanc of a replay of the protested game with Brockville if the gam aftects their final standing.

A win over the Teeps toulght abould virtually clinch and place for the Goodyears, or at least give them a sunglebeld on it. It will give them a six-game or twelve at margin over the Colts, a virtual improbability for thess.

A fine bunch of puck-chaing youngsites wearing Belleville's colors tossed the opinion back into the teeth of a few die-hards in this city who claim organized sport does not pay. They prefer the corner-to baseball and softball and puckehasing on rivers, creeks and the bay.

The youngsters, Mel Richard's peewee puchists, carried high the hunner of this city's minor hockey up is Lindauy on Saturday, and narrowly misaed bringing home the Eastern Oniario championship. They competed in the annual Lindauy tournament and established something of a record even if they wound up in the runner-up position.

Under Eichards and Oscar Dufour the mospets wan ree straight victories, and get this, all by decisive ree. They wun 12-0; 6-1, and 4-0 before bowing to the try Bownauville youngsters in the champlesship game.

Bill Gault, Boller Lloyd, Mel Richards, Harry Rollins, be-sides the various coaches and managers are doing a swell job in looking after minor bockey in the city, while in the district Doug Patterson and his merry men from a far-flung area are keeping up the good work.

These mes whe give a let of their line, offert and some-times money deserve a lot of credit, far more than they get. Their big moments come such as those over the weekend. Mci and Oscar, as well as the rest of the fine gang of mine-hocker administrators, abseld heave out their cheese with justifiable pride over the accomplainments of their powers.

#### RCAP WRESTEING

This will be no powder-puff affair for both men have repu-tions of being villains of the darkest hue when it comes to estiling. There should be fireworks galore when the twain

Two other outstanding boots round out a fine card. There will be other attractions, too. The crack drum and tumpet band of the station will be on hand and will be the central figures in a presentation ceremony. Then, too, strangements are being made to bridge a roller stating champion to add to the festivities. It looks like a good night in the station proofs hangar.

#### RUSSIANS SACRIFICE FOR FUTURE

The Associated Press reports from New York that the official Soviet economic report for 1955 shows that Russia's workers last year toiled harder than in 1954 and produced

more, but got exactly the same pay.

It would be a mistake, though, to jump to the conclusion that this indicates that Russia had a bad year

conomically.

Indeed, we should not overlook the fact that, by
writing harder, the Russians produced more. Since their
pay was the same, the surplus went to the state. What
the state did with the surplus is the crucial question. If the state did with the surplus is the crucial question; it was expended for non-productive purposes, then Russia is no richer. But if it was spent to buy more machinery to produce more goods, then Russia is richer. There is reason to believe that it was spent for exactly this pur-

# The Valentine is 1700 Years Old Emperor Claudius Started It?

Though the exact origin of the St. Valentine's Day greeting is vague, Roman Emperor Claudius, over 1700 years ago, is rectified with starting the custom of exchanging sentiments of love. Today, words from the heart are big business, accounting for a healthy slice of the \$26 millions shared annually by Canada's four major greet-

ing-card makers. Standing second to Christmas in volume of business, Valentine's Day keeps hundreds of writers, artists and sales promotion experts hopping to keep up with Canadians who look upon the fourteenth as a harbinger of spring love. Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

For many years curiers of this city have been orphans to writter sports scene storm. They, may have had writes a swetbearts is caudio 'em, but they have had no place to hat their become and stance alone back in the balmy days wh Relieville's 'first curific; risk was transformed into the ci-

For as many years a few of the curiling faithful have been pendent on outside rinks and bompiels for their favorite sport, and rinks from this city have come home with prize-winning con or not a few occasions.

An attempt was made to form a curling clab here a few years are, but the idea felt through when the hurdles ap-peared insurmentiable. The cost was out of reach, and at that time there was not sufficient faithful of the rearin' game to finance the idea.

Curling the past year or so has had an upsurge in in-terest that is remarkable in sports history. Always a popu-face Canadian sport, it has now reached the point where it is more or less sweeping the country. Ciths are spring-ing up all over the place. It is reported that out went the game is punhing hocker off the sports pages in some places.

Grandmas, grandpas, school children, teen-agers are flocking the cutling colors. In some small out-of-the-way places, cutling spiel is the winter counterpart of the strawburry lat. It is a popular sport in secondary schools. The school-ve cutling championniby is one of winter sport' major fea-

New Belleville curidom is making another effort town ganting a club. It is felt that along with a large num veteran curiers in the city, there is sufficient interes-take the idea possible.

With this in mind the boys of the brooms and stane are slding an organizational meeting in the city hall council ambers Wednesday evening.

Bill Gault, one of the veteran curiers of the city who mixe favorite sport with looking after the Rotary Club, Bellevilli for Hockey Association, and express problems of the Canad-National Railways, is one of the prime movers of the idea.

"We never had a better opportunity to organize a cith that at the present," Bill said today. "We have an excell chance to acquire a building and if sufficient outbrais turn out to join the organization we are sure we can ma a success out of it."

Bill would not enlarge on the building idea but he see afident that the proper enclosure for a curling rink it as ing more than a dream.

"We would like to get enough members at this initial meeting to procure a charter for the club," he said. "After that I feel sure that interest in the game would entice other people to join. There are, I believe, some 15 veteran curlers in the city and district and this should form the right nuc-leum for a successful club."

Evidence of interest in the game locally was seen a co-of years ago when the Kingston club spontored a two-we-session of play in Memorial Arena.

The club, if organised, would endeaver to interest the could of the city, Gault said. He felt a lot of teen-aged suths would be interested, with the strong possibility of swrings a schoology curling organization which could event-ually compete in provincial and Dominion competition.

"And don't forget," Bill added, "curling is not confine he young alone. Anybody from 'teeners to ninety-year-old

#### GETTING CLOSERS

The TFT's whittled their chances of a playeff berth to a surrower margin last night when they dropped a 6-2 verdict to the Kingston Goodyears in a somewhat listless game down Roddcaville way.

And while it slimmed our side's hopes of a place in the play-off spotlight, the victory enhanced the Goodies' chances of cling-ing to second spot. They needed the extra two points to log-pit them award off the challenge of the Cornwall Colts, slight as their chances are.

The Coxmen wind up a seven-games in sine-nights hunker of the wasky senior "B" schedule tomorrow night when they trik to Whilby for their final appearance of the season sgainst the high-scoring Duniops.

The Teeps have not been saturated with breaks this season and coming as it does this seven-in-nine nights was the vector 'break' blow of all. After all the Teeps are only human, and flesh and blood can stand so much hockey wear-and-tear.

The same applies to all Reseas in the group. Each has tasted e ups-and-downs of a feast-or-famine schedule. But they we no one to blame but themselves—or their managerial rep-

Just as there are many types of people, there are many types of investors. Some have substantial ats to invest : : : many more have medium amounts: Some are familiar with the basic eles ments of sound investment, others have had little experience : : : or, in fact, no experience at all: With some, safety is a chief concern, others regard want some, satesy is a cuter concern, others regard income as more important, and an increasing values are interested in acquiring sound securities with growth possibilities:

All this really means that no two people have exactly the same investment problem because no two requirements are exactly alike. But despite many differences there is one thing common to all investors : :: it is that every person's investment problem is a very personal matter : : : a subject that he doesn't care to discuss with just anyone but, nevertheless, a subject on which he will often welcome experienced help.

That is the kind of help which we can provide ec. and have been providing for many years. It may be the kind of assistance you would like to have. If so, we invite you to get in touch with us personally... by dropping in at any of our offices

Stengel (glibly)—Participle—a unit of speech ranged as an minificeted word but serving almost as a loose affix, expressing one general aspect of meaning, including the articles, most prepositions and conjunctions, various pronominal adverbs and went the ejecutatory interjections:

March (gaplog for breath)—Mr. Stengel, you've not only answered the first question correctly, you've answered the next six! So you're up to \$18,000. Now, Mr. Stengel, for \$15,000— what's the name of the Yankes centrelleder?

Stengel (confidently)—That's easy. That feller which has burn knees. The bubble-gum champ.

March-Yes, but his name? Stengel—The feller which can't hit that high pitch left-ded. If he ever learns to bunt . . . .

March (impatiently)-but his name? You must give his

March-I'm sorry. You have to give the name-and your time's up. Mr. Stengel, you tripped up on Mickey Mantle. Stengel-Well, it ain't the first time,

Wrestling fans should not forget the fine card being staged in the sports hangar RCAF Station Teenton starting 430 toolght. Tough Fred Attan, the Autrellain hardreck, meet equally tough Fritz Von Erich from Germany in the main bout which should be a thiller as boin of these boys know all the "villainous" ans-wers. Two other topflight bouts round gut a highly entertain-ing card.

Then there is the meeting of the city curiers in the city I council chambers tenight starting cight o'clock. Those mind the move are anxious that all curiers, past, present I fature, turn out as all will be needed if successful excitation is to be completed.

### PROVINCIAL GRANTS PROBLEM

HON-DAIR POTER, PROPRIEM

Hon. Dains Porter, Provincial Tressurer, recently stressed the need for an equalised assessment throughout the province. Announcing that a great of \$6 per pupil would be made to school boards, he told the Ontario Legislature that only when there was an equalisation of assessment between the different numbelpatities than province. The tree of the province 
mounter the during the system of grants for educational purposes.

Under the old mill subsidy on muclipal assessment, municipalities with low with the system of the control of the system of the syst

this program of equalized assessment, started more than to war sign, has not met with the desired success and ment for grant purposes."

As we pointed out, under the mill-subaidy system a model-pailty which was the model of the mill-subaidy system as model-pailty which was the started was supposed to the model of th

this fact.

The present system may need adjustment. On Monday the Ontario Legislature heard Ross Whicher, the large prints to municipalities were not fair. Simal municipalities get only \$1.50 per capita, while Toronto receives \$4.50 km of \$1.50 per capita, while Toronto receives \$4.50 km of \$1.50 per capita, while Toronto receives \$4.50 km of \$1.50 per capita, while Toronto receives \$4.50 km of \$1.50 per capita, while Toronto receives \$4.50 per capital \$4.50

sound.

Incidentally, the present system of various provincial grants for different purposes in-highly complex. In theory it is destrable that it be simplified. In practice, this may be impossible, because these grants are designed to help solve problems which are titemselves complex and which would probably dery any attempt at combining simplification and equity.

Rare, Medium, Well-Done - By GEO. H. CARVER, Sports Editor

Mercys "Red" Dutton, former National Hockey League president and player, and now a Calgary contractor has plained the rare order of dis-hards who do not believe in organized spoif for infarer. Dutton is not quite so bad as his colleagues, for he advises mon-organization for hockey moppets until they reach journals age.

Dution, for the want of a better excuse, places the primary respectability of "what is wrong with our national sport lodgs" on the shoulders of parents. Says he: "Parents today don't care enough about their kids to even go down to the rinks and see there play."

He adds: "Don't organize hookey until juvenile ages a en maybe parents would shoulder more responsibility in me like they did in the old days."

What old days?

It Is assumed Dutton and his die-hards would have hockey moppets up to juvenile age, do as they did in the old days. Get their hockey fun from frozen rivers, lakes and marshes or it lucky enough, on open-air street-corner rinks.

We are not trying to prove that modern parents take the levest-they should in the kids hockey. True, arenas are not mmed with parents on nights the youngsters play but maybe one of the die-hards would get a surprise if they look time it to see how many fathers and mothers do turn out to watch

In our moppet days when we played on the "cricks" and narshes for hours at a time, we falled to note the shores ned with fond parents. They were not even around when rapedy struck once and two fine kids drowned beneath the on-covered surface of West Lake.

And just for argument's sake a year ago Memorial Arena housed 2300 "parents" and friends of minor hockey in a play-off game between Sitrling and Kincardine. An all-time rofe for minor hockey here and in Oniario, and an attendance that puts to shame that of most senior "B" games.

The statement that modern parents do not take enough interest in minor hockey up to juvenile is so much balder-dash. Fathers do not go to see every game in which the same play. They are not expected to. But they are doing a guan-size job outside of watching their offspring.

Three thousand kids between Norwood on the east and Gananoque on the east, not counting 600 in Kingston and the same number in Belleville, are enjoying organized hockey under the segle of their own organizations in particular and the Ontario Minor Hockey Association in general.

What would happen to them if the Duttons and the die-hards had their way, and confined organized hockey to those of juv-enile age? Mr. Dutton did not supply any solution for this.

If has been giff that those in charge at boys' organized backer; have playing some of their own. Generally, yes. In a lot of cases, no. There are men in this city who are not blessed with some who take equal interest in the promotion of minor sport whether; it is backery, softball or baseball. It will be a sad day when they don't.

Parthermore, the National Hockey League, which has sponsored junior hockey since away back when, has now extended its fatherly interest to minor teams. In one city alone a National Hockey League of the in sponsoring four powers claim. Surely that is not what is "errorg with national sport."

Nearly twenty thousand kids in Ontario, the minority enile, are enjoying hockey under the administration of the latfo Minor Hockey Ausociation and its affiliations. I grown from a dozen clubs in tifteen years to its presen

Recently newspaper reports stated that hockey is at a low in the western provinces. Perhaps Dutton is judging the of Canada from what is happening on the prairies.

Would they have this winter ume confort if organized hockey was barred up to juvenile age? Or would they rise to beights and become martyragio prevent the "ruination of national sport," as Dutton predicts.

# OIL DRAIN PLUG

The above may seem to you to be an astonishing statement— but it is a fact, and is the result of a development by The Na-tional Research Council, the organization set up by the Govern-ment of Canada to assist industry in Scientific Research.

The FOS-MET Oil Drain Flug should NOT BE CONFUSED WITH ANY MAGNESIUM ACID NEUTRALIZER FLUGS on the market closely, it is a distinctive product on the market closely, it is a distinctive product on more effective than magnesium plugi thus far developed and has the Money Saving feature of greatly reduced outlays for oil.

The FOS-MET Oil Drain Plays to largely increases the life of the oil, but by prevention of the acid formation it reduces agine wear to a minimum and therefore cuts down the need for engine overhauling and at the-same time helps greatly to maintain the least trade-in value for the car or other piece of farm

equipment.

This is something that you can buy with confidence and it every farmer concerned with the economical and efficient of the farm should have. If you install one of these no ill drain plugs in your car or truck you will soon want all ye oil using weblies and machines equipped with it.

This matter of forgiving, therefore, calls for study. Aye, it call for prayer: "Forgive us our debte as we forgive our debtors." WHAT IS FORGIVENESS?

What first of all, is involved in forgiving? Well, of course, if means to forego all private re-vense, to remit the right to retal-late. To forgive is somewhat dif-ferent from excusing. We excuse a person's deed when we exemp-him from the imputation of blame. For instance, we may say, "I ex-cuse his conduct, considering the

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor

The senior "B" playoff berth issue has reached a critical stage for Danny Cox' Teeps. That 7-3 setback last night at the hands of the Kingston Goodyears and Comwall's 13-7 victory over Erockville resolvers the fight for fourth place strictly between the Coxmen and the Magrics.

"The Colts extended their third-place lead is six points over Brockville while falling to gain on the Roddenville "defending champions." That guarantees them a spot in the playoff sun for our side, with four games to play, can't affect the Colts' point margin over them.

Now the fate of the Teeps depends on two things; a lctory over the Magries here next Tuesday night and the seath of the Brockville-Belleville protest. And don't de-send too much on the latter. Somebody may be in for a sur-

Stirling's up-and-coming bantams took out Wellington 7-1 and grabbed a commanding six-goal lead. The winners meet either Norwood-or Bobcaygoon. Campbelling's migdet "Cs" defeated Marrhora 9-8 on the round to cop thely group title. They meet dither Uxbridge or Sunderland in the fifty round play-

Belleville and Kingston hantans, midgets and juveniles wrap their playdowns series in packages. The teams play i triple beader in Memorial Arena Thunday, February 13rd, with the second trio of the goals-to-count series set for King-ston Saturday afternoon, February 25.

In juvenile "A" minor Trenton and Port Hope are in a playdown struggle which was decided last night. No score available at time of writing. Showmanville took cut Gananoque in the juvenile "B" series while in midget "B" Bowmanville de feated Picton. In banium "B", Ajax elliminated the Picton Catatel Picton.

The efforts of the OMHA in promoting clean hockey are bear-ing fruit. The association has punctuated these efforts at times with stern action and this apparently is having the desired ef-fect. Suspensions have been levide where necessary and the OMHA has given definite notice that it intends to abide by its

SHELL BETTER DRIVING QUIZ NO. 1

# How fast can you touch each square in numerical order?

WITHIN 9 SECONDS?

Your reflexes are about average.

WITHIN 7 SECONDS?

Very good.

WITHIN 5 SECONDS?

Excellent.

MORE THAN NINE SECONDS? YOUR REACTIONS ARE TOO SLOW. DON'T DRIVE OVER 45 M.P.H.

Like every good neighbor in the community, the She Oil Company is interested in your driving safety. That why we're gland to see new roads, and to see automobil manufacturers building extra safety into today's necars. But the spot where there's greatest room fi improvement is in the driver's seat. Better drive activides will make our roads and highways gafer for you... for everybody. If this test halps you think a little more about safe, and same driving, it will have done what the Shell people set out to do. Tear out this page and try it on your been-agers, too. Shell—your sign of a better future on the road—suggests that you and all motorists drive safely now... and in the future.

V. O. N. WORK IMPORTANT

This is VO.N. Week

The Victorian Order of Nurses is described, in a
publicity release in connection with the Week, as "a
private organization for public benefit."

The public does benefit, in several ways.

Perhaps one of the most important benefit, though,
in the manner in benefits are built and enlarged, they
always seem to be crowded. This crowding could be
much worse were it not for the manner in which the
V.O.N. helps meet the demand for home nursing care. In
this way the V.O.N. renders a service to the hoppitals, by
enabling them to keep beds free for describing them to beep beds free for describing them are to be expensed and the contract of the

Order are:

1. Medical and surgical cases convalescing under a tor's supervision but needing professional nursing 2. Maternity cases released from hospital. Usually

2. Maternity cases released from nospital. Usually the mother is anxious to get back to her own home and family but both she and the baby need the extra care and instruction the Victorian Order nurse can give.

and instruction the Victorian Order nurse can give.

3. The chronically sick—cancer patients, heart cases, the paralyzed, the crippied and those suffering the infirmities of old age.

In all these cases the Victorian Order nurse does more than give professional care. She brings with her on her visits, interest, hope and good cheer. Often are restores order and good management to homes where the bread-winner, or the mother, have been hospitalized and she encourages the old and the chronically ill to take an interest in living, and in doing things for themselves.

#### CASH IS STILL KING

Installment buying, or consumer credit, is worrying

Installment buying, or consumer credit, is worrying come accommendations of possible were vary from inflation, caused by an excessive demand for goods, to deflation, resulting from a decline in demand due to overspending. Come problem, the consumer of the consumer is surprised to see and when cash in the hand brought a bargain.

Cash? So what? The merchant couldn't care less, flower price for each, the customer is surprised to see a nose raised in distallant. Cash? So what? The merchant couldn't care less, flower price for cash, the customer learns, flower price for cash, the customer learns. The consumer is surprised to see a none raised in distallant. Cash? So what? The merchant couldn't care less, flower price for cash, the customer learns, flower price for cash, the customer learns, it is cash to nonger leng? That may be the customer's conclusion. But it is an erroneque one. If he started the buys on credit, the consumer will discover that cash will still bring him a bargain price.

The difference is that closely what an article costs when each is paid. If the article is bought on credit, the total cost is considerably higher.

Cash is still king.

#### 22 Head of Cattle, Hogs, Hens Burned In Sidney Twp. Blaze

Loss estimated at over \$13,000 was caused early today when the large frame barn owned by 4 Sidney township farmer, was completely destroyed by fire along with slock, hay grain and implements.

Twenty-two head of cattle in-cluding ten milch cows, 38 hogs, five brood sows and 122 hens were lost in the blaze. Also destroyed were farm im-plements including seed drill, hay loader, cultivator, mower and binder.

The farm tractor, which was in another building, was about the only implement not burn-ed.

The fire is believed to have started shortly after 4 o'clock and was discovered by a motorist who was passing at the lime. The motorist swale ened the farmer, but it was too late to save any of the trapped animals.

The Believille fire departmen The Believille Fire Depart-ment was called out but noth-ing could be done to save the building. No other buildings were endangered. The loss was partly covered by insurance.

Capacity output becomes pressing goal of nation's mightiest automotive plant at Oshawa.

Action is the keynote, Oshawa the focal point, as the vast network of supply, production and distribution, to which so many Canadians contribute, and from which so many benefit, pulses with the eagerness of a united purpose-

With never a wasted moment, the cars and trucks—each one a leader in styling, craftsmanship, engineering design and all round value—will soon be on their way to every corner of the land.

Never in its long history has General Motors brought such outstanding products to the market-place. Never before has General Motors' traditional standard of excel-

lence and dedication to "more and better things for more people" been so conclusively exemplified.

Confident that they are well worth waiting for, the General Motors dealer in your community cordially invites you to see and drive these brilliant, superior cars of 1956.

#### Ready cash

is a wonderful help

When a bargain pops up, you don't have to hesitate. Suddenly you're the proud owner of something you never thought you could afford. Maybe you have something in mind right now that you'd like to buy, but haven't the price.

Don't give up hope, Instead, open a Savings

Account at The Canadian Bank of Commerce and put away as much as you can from every pay. By the time there's another big sale of some item you've always wanted, you'll likely have enough ready cash to buy it outright.

Try it. Call in at your nearest branch of The Canadian Bank of Commerce and start a Savings Account today. Any of our personnel will be glad to help you.

### BOCKEY NIGHT IN BELLEVILLE

Temerrow night is "Hockey Night in Belleville." For youngstern, that is,

Tomerow night the future stars of the feelance will de-sist the heekey ploture at Memorial Arena. Bantaus, cris and favoralise of the Belleville Miner Heckey Asso-ten will show their 1885-56 wares before, it is hoped, a crowd of the populsor.

Opposing them will be the cream of the moppet crop of Kingston Minor Hockey Association. The occasion is the th round of the Ontario Minor Hockey Association bantam, dget and juvenile playdowns, all of which will be wrapped in a trigle-basedr package.

The Belleville bankuns will oppose the Kingxion ban-sus and so on down the line in a two-games gest-to-count feet. The second triple header is slated for Kingxion on traday attensees. The winners of the various classifica-na more on to the second round against the winners of the interiority-challways nories, which also gets under vay this

The fasses representing both cities are the pick of their various classifications. Statistics reveal that ever 669 years, serious have cakered organized minor bockery in both places. Neigraily seems this are better than others. Many of them are materia become players. Others have the game both have not, as yet at least, reached the point where they can be given as all-few afetin.

Naturally there has been disappointment in some questions both parents' and players' ranks.

This is fairly pusicrotandable among the moppels, al-ugh the greater analestity of the kids have confidence in ir casedon and fully feelins the importance of their judg-at. Unfortunately this is not the case with a few par-

It is natural to have pride in one's offspring, no matter at sphere of activity.

We believe as 60 many others that those in charge of miner backey here have done a splendid job. They have reunded some 600 youngsters into expanired units that are result to them, the city and to the youngsters themselve.

We believe the coaches in every instance have shewn partiality in their selection of the youthful all-star play-. We believe the bors have been picked strictly on their chey-playing merits and not because of family or any either stons. This is the way it has been, is, and will be.

Fortunately this type of parent is greatly in the minority, be greater majority take great pride in their youngster's ability of have the common sense to know that every kid cannot make a sile-star team.

Rare, Medium, Well-Done By GEO. H. CARVER, Sports Editor.

: Time's a-passin' and it won't be long before old man winter thes the count and a grateful country readles itself for leating sees, budding shubbery, garden tools, flabing gear and visions

Buschill and softball are loosening the winter moti-batts and will energy for the season at the various annual conventions. The Ontario Baschill Association is bolding its annual confab at Oakville this year in the middle of Blarch, while the Ontario Amsteru Softball Association will convicts in Toronto prior to the Easter weekend.

There has not been much title of surfer baseball as yet and it is quite likely its temporary relegation to vacational will be extended another occanon. There is not a whitmper out of Peterborous or Kingston, while ORA executive member Jack Carson of this village, while boping, hear's anything of a coarrier nature to offer.

Jack will attend the ORL oct-together aild we are informed to will beck Oglivy and Johnny Mowatt of Wellington, who an interested in such way of the Bay of Quinter intermedial intermedial managers at the property of the pr

Local organizations, both softball and baseball are getting ady for the coming season and a number of annual meet ga have already been called. It is a good idea to get the st-season wrinkless straightened out and plans laid for 182 feet the varieus parent-body annual conventions get un

One of the mere important conventions as far as Bell ville is concerned is that of the Ontario Amateur Softhat Association which gets under way at the King Edward Bel Toronto, on the Thurnday preceding Good Friday and far threath Satirday. The Belletine Busited Softhati Association and a Mighly successful season last year with two teat bringing home provincial championships.

President Cy Barriage and his executive are to be com-mended for a fine year. Cy has called the annual meeting for Sendar, Feb. Dam, at the Vest Motor Siterer Fire Bull where the necessary plans will be had for another season at success. Then, too, with the possibility of the OASA annual being held here in 1857, there should be plenty to discrea-ted the control of the Control of the Control of the Control Deligation to the OASA convention are to be appointed, while

As the war, enipsed about the negro's left car: "It also't right and it sin't fair." These peeky Ringrion Geodrean, netticed at their inability to hand as declaire behinking our side all scasson, vented their pock-chaning spices in one of the sweep has taghts. They hopted, estitled, finandered and hithered the Danny Cax battlewagen beneath a 14-past harrage in Rodderville.

The Limestone flat-top roared into action with all guns fring. They cleared our decks 5-0 in the first skirmith, demol-abed the fo'castle beneath a 6-0 fusilate in the second and handed the Cox crew over to "Davy Jones" with a three-gun

Scriously, the defeat puts the Teeps back solidly agains the wall. They must defeat the Cornwall Colis in the last two times out, while Receiville, loses all its remaining few; gauses—three with Kingston, one with Cornwall—i grab that fourth-slot played borth.

And since Cornwall has hopes of dethroning the Goo m second place and the Casterion crew has every inter retaining it, the road ahead for the Maggies is anything

And by the same token the Teeps chere of kneeking off the fractions Cella twice in a row wont get you 2-1 edds in the back room. The Cornwall crew will be the greate of the Teeps knowrew night and there will be second-slot fire in their collective eyes.

# Stay Back! Don't Crowd Your Luck!

ANSWER : Five car-lengths (100 feet). Stay one car-length farther back for each additional 10 miles of speed—and more if road is wet or icy.

WHEN YOU'RE GOING:

40 m.p.h.

4 lengths or 80 feet 5 lengths or 100 feet

2 lengths or 40 feet

The Shell people believe that being a good neighbor calls for more than just making good products. Part of our job is to help keep you safe on the road. It's not enough that today's cars are the finest, safest ever made. We need safe drivers in the safe cars. That's the reason for this message. Canada's highways form a great personal transportation system. When all motorists use these highways safely all the time, that's the sign of a better future . . . for you . . . for all of us.

Rare, Medium, Well-Done By Geo. H. CARVER, Sports Editor

The Cornwall Colis with fire in their eyes and a the wim-and-st-in-the-inst-feer record behind them will here tenight with victory bleed in their optics. Not so me because of the fact the fee will be the books-in-the-vi-TYT's but the victory pair of points are all-important to Colis' present intestition.

The Colts are aiming high. Twelve points in arrears of second-place Kingston Goodyears they still cherish the they can do the nigh impossible and out the Goodies from lace perch. It is possible, but not probable.

sville Minor Hockey Association executives, coaches sagers can take a bew. Se can a lot of parents and

Last night's triple-header OMHA playdown series was a thot credit to all concerned, despite the fact the Belleville negsiers were beaten twice and tied once.

The marked improvement of all three participating clubs: anians, miners, juvenile, is a distinct feather in the cap i those in charge of the hockey-minded youngsters. And added further feel to the argument of the great majority the favor organized sport for the mospets.

But in the background there is a darker side to the picture. Very few, if any, of those attending has highly show gave a thought to the backer future of these find yearspaces after they graduate from hyvesile ranks. These are the 14-year-side after August 1st.

In other words: "Where do they go from here?

All of those kids out there last night won't attain se fature. A lot won't even "make" the intermediates. a few of them have the groundwork for future upper brif not stardom.

None of them is good enough to catapult from Juvenile has to intermediate or senier B clubs. What is needed is serim experience, time to fill out and other requisites ne-sary for upper bracket players.

There is no junior bockey in Belleville—and therein the answer. Nor is there any indication of junior bockey ing from its abse. It died a natural death from the viru non-support, and other causes, a few years ago.

So there's the altustion. A group of men are doing a nan-size job in promoting and furthering hockey for the coungsiers. The sad part is, when their job is finlabed, so ye the local hockey careers of a let of these young athletes.

It is a sad picture—but a true one.

E. M. DAFOE,

### THERE IS A DIFFERENCE IN ADEQUATE WIRING!!

IF YOU BOUGHT A DOUBLE ELEMENT ELECTRIC WATER HEATER BECAUSE YOU EXPECTED TO USE MORE HOT WATER IN THE FUTURE,

Which Should Be Called Adequate? EXAMPLE: To wire adequately for the present pack of the equivalent of one heater OR as I would advise, to wire adequately for the present so be used at once or even better that the elements could be exchanged for a larger element as not water requirements are in-marring of the finish of your home.

ALWAYS REMEMBER YOUR APPLIANCE IS ONLY AS GOOD AS IT IS INSTALLED!

DEFINITION OF INADEQUATE WIRING Inadequate wiring is overleading, and abusing by over-fusing to avoid an expensive change-over at the time of increased lead. WHEN YOU WIRE, WIRE ADEQUATELY FOR PRE-SENT AND ANTICIPATED LOADS. YOU MAY SAVE A LIFE, AND IT MAY BE YOUR OWN.

Bosquets of bodychecks were the main tribute at the neral." Referees whistles piccole'ed the requiem. But Torps went down with all gum firing in a final effect it was featured with ragged, ragged hoodey.

The Teeps did their best with what they had. Wade, Mul-nliand and Greenlaw were missing and a couple of soft Corn-all goals did not help their morale.

A victory for the Yeeps would have meant nothing more than a saving of face, since the Brockville Mayedomas em-erged from their lengthy defeat shamp in starting man-mer, defeating the second-place Kingston Goodyears 3-7 in a rearing overtime battle in the riverside river.

So more or less grudgingly it must be admitted that blichael Rodden, of Kingstoh, east o' here, either had a tremendous of prediction hick, or he is a soothayer of more than passability. From here it looks as though Whithy will clash h the Maggies and the Colts take on the Goodyears in the

# Today's Living is measured in Kilowatt-hours

What memories are stimulated in grandfather's mind with thoughts of his own boyhood? His was an of his own boyhood? His was an algo-finanpower, steam and clock-work. In the half century separating his boyhood from that of his grandson, electricity has literally "taken over", to become the life-blood in the pulse of progress.

In that relatively short span of years, Ontario Hydro has grown from a conception in men's minds to one of the largest organizations of its kind in the world. Today, Hydro owns and operates 64 hydro-

electric and 2 large fuel-electric electric and 2 large non-average generating stations, and is presently co-operating in the development of Canada's first nuclear-electric gen-arating station, to provide power from the atom.

Who can say how much power will be required 50 years from to-day? New applications are found daily for this most versetile of all commodities. No matter where you look electricity is at work in the never-ending search for better fiv-ing, opening new horizons that meen a brighter future for all.

SHELL BETTER DRIVING QUIZ NO. 3

PUT YOUR FOOT ON THE GAS PEDAL HERE:

# See how fast you can move to the brake!

INSTRUCTIONS: Sit in a straight-hacked

chair with this page on the floor in front of you. Put your foot on the gas pedal. Now hold a coin out in front of you four feet above the paper (that's about forehead-high). Drop the coin and, at the same time, go for the brake. Read below to see how your reaction time rate.

.

HOW DO YOU RATE? Did you heat the coin to the brake? With normal reaction speed, you should best the coin every lime. The coin takes 15 second you would knew 15 reaction the flow. In this 15 second you would knew 15 re it you were aging 50 m.p.h. On a dry parement with brakes in normal operating condition you'd traval another 188 feet before stopping completely. ### Better days are here for Phil Fraser!

In all his years of railroading, Enginees Phillip Fraser has some big changes.

"Rolling along in this smooth diesel locomotive," says Mr. Fraser, "is a real thrill—a far cry from driving the old steam jobs. Its extra power gives it quicker-pick-up and more speed on the grade. Beddes, it can runl from coast to coast without a change. That's what I call progress!"

Phil has seen progress in the *life insurance* business too.

As a family man, he knows that this business offers better service today than ever before.

Take life underwriters, for instance. Modern training makes these men better qualified to guide people through the complex problems of planning for future security. Today, too, life insurance is mote βexible. There's a wider range of plans—allowing people to meet their own individual needs.

Moreover, people with sertain physical handicaps, can now enjoy the protection of life insurance.

In these and other ways, the life invarance companies in Canada have progretical with the times to meet the changing needs of people in all easilts of life!

Whithy Dunleps with the learne championship naisty in their grasp can coast through to a senior "3" record this week. They play the two, remaining pance at a home against Margine and Corrwall, and if victorious in both title will plat up the imposing record of 31 wins, two lites and five defeats.

it was felt that although attendance was at an extremely mark it would not be fair to the few hundred loyal Maggit who have supported the club all season, to take the gamet where. So come heek or high water, fans or no fans, the gies will perform at home.

Despite the imposting record of the Dunlops in schedule play, there should be some terrid hockey upcoming in the playofts. While some pected an easy time for the Dunnless in their semi-dial jourts with the Maggies—look out for squalts. #### BLACK HOLE OF SUDAN

The story of the Black Hole of Calcutta is known to ry well-read man throughout the civilized world, and every child in Britain.

Tuesday night of last week 285 farm workers wer reded into another black hole, in the Sudan; 194 died. crowded into another black hole, in the Sudan; 194 died.
Sirangsly enough, few newspapers appear to have
thought that this was world-shaking news. The Toronto
Globe and Mall preferred Essentioner's amountement that
urantum worth a billion dollars would be released for
peachyl atomic energy project. The Toronto Ester thought
the merging of Metro police forces more important. The
Toronto-Estergam believed that Prims Minister St. Laurent's plans to talk with President Eisenhower were more

newsworthy.

Yet the Sudanese black hole claimed 61 more liver than the Calcutta outrage—and ironically enough the Calcutta death toll may have been exaggerated by 121

lives: On June 20, 1756, the Subahdar of Bengal stormed the East India Company's cladel at Fort William, in search-of treasure. The commandant, J. E. Hevell, said that all white immstes of the fort, numbering 146, were locked in the claded's daugeon, a room 18 feet by 14 feet 10 inches, with only two barred windows. Suffociation and penic hilled all but 33 of the 146 prisoners—according to Howell.

### Service...in all sizes!

That's just about what our business comes down to.

One of our old customers — a long time borrower — wants very little.

All he asks for is fast and reliable service when he needs a cash ad-

But we have other customers too

People who come to see us about People who come to see us adultinancial problems, budget prob-lems, or just advice. Perhaps you don't need a loan at all, Maybe a bit of advice from our Manager on how to help manage your funds would be useful.

We don't know what size service you take, of course.

But we do know you can find it at
